

## Look But Don't Book

When you sign into Concur, the landing page has a TRIP SEARCH on the left panel. Enter the From and To Airports and the dates you want to travel, then click on Search.

If reserving flights on Southwest, no other airlines can be included on the same reservation. If you choose a Southwest flight, all other airlines will be excluded from the options offered. If you choose an airline other than Southwest, Southwest will be excluded from the options offered. If you would like to reserve Southwest and another airline, you will need to create separate reservations.

Basic Economy fares have been removed from this travel booking site. These fares are highly restrictive and do not allow standard amenities such as seat assignments, changes or carry-on luggage. If you would like options that include Basic Economy, please contact your agent team.

This page offers a lot of information and lets you narrow down the flight you want. Look at the Matrix. If you try to book the Nonstop flight for \$662.40, you will get a warning and may have to pay for some of your flight. Be reasonable in your selection. If you want to leave or arrive around a certain time, you can narrow down the flights by using the sliders on the left. You can change how the flights are sorted but making a different selection. Duration and Stops are helpful if you have time constraints, but again, be reasonable. If you select a flight that's more than \$200 or so than a reasonably priced flight, you'll get a warning. But, you don't have to choose the cheapest flight if the flight duration is unreasonable for the distance that you are traveling.
