

Fall 2017 Seminar Series

Institute of Neuroscience, University of Oregon

DATE	SPEAKER	TITLE	HOST
9/28/17	Martin Usrey	Dissecting the Dynamics of Signal Transmission in Thalamocortical Circuits	Angie Michael
10/5/17	Hari Shroff	High speed imaging at and beyond the diffraction limit	Tristan Ursell
10/12/17	Santiago Jaramillo	Neural pathways for auditory cognition	Biology Dept
10/19/17	Andreas Tolias	The Fabric of the Neocortex: From Canonical Structure to Computations	Cris Niell
10/26/17	Anatol Kreitzer	Fast-Spiking Interneurons Regulate Ensemble Calcium and Striatum-Dependent Learning	Phil Parker
11/2/17	Adrienne Huxtable	Plasticity in the neural control of breathing and the effects of inflammation	Cris Niell
11/9/17	Yashar Ahmadian	Understanding and inferring circuit mechanisms in sensory cortex	Biology Dept
11/16/17	Julia Kaltschmidt	Mechanisms of interneuronal circuit formation	Chris Doe
11/30/17	David Gire	Neural circuits for processing natural odor scenes	Matt Smear
